Has Faith In Quick  
Remedy For Catarrh

Warner Bros. Guarantee That Hyomei Will Relieve The Worst Cases of Catarrh in Portsmouth

When one of the most reputable concerns in Portsmouth guarantees that a medicine will produce benefits for they will refund the money, it speaks volumes for the merits of that remedy. It is in this way that Warner Bros. are selling Hyomei, the treatment that has helped so many cases of both acute and chronic catarrh in Portsmouth and vicinity.

Hyomei is not a pill nor is it a spray or a lotion that must be rubbed in. It is an oil of the air which you just breathe in your nose, throat and lungs by the aid of an inhaler that comes with every outfit. Hyomei will usually be seen from the very first treatment.

This oil destroys all germ life in the air passages and lungs and enriches and purifies the blood with the additional ozone it supplies. It banishes catarrh of the head and throat and respiratory organs. Hyomei does not cure catarrh, it cures it. Hyomei will do its work of healing. When using this treatment, the air you breathe will be found like that on the mountains high above the sea level, where grows the balsamic trees and plants which make the air pure by giving off volatile antiseptic fragrance that is healing to the respiratory organs.

The complete Hyomei outfit is inexpensive and includes an inhaler, dropper and sufficient Hyomei for several weeks treatment.

Remember that if Hyomei does not relieve you Warner Bros. will refund your money. This is a good time to get rid of catarrh by this natural method and prevent catarrhal colds that are so common at this season.

## The Movies

"The Eternal City" Columbia Tomorrow and Thursday. Seats Selling Fast.

"The Eternal City," which will drop the Famous Players have brought the streets of Rome to row and Thursday, marks the passing of another milestone in film history. There have been larger productions, such as "The Birth of a Nation" and "Cabiria," but these have been in the past of spectacles; big sets with thousands of people, and a thin story to give the film substance.

"The Eternal City," however, is purely a dramatic story. While it has several large scenes, they are only incidental; they never overshadow the story. I believe that this picture marks an epoch in the history of big pictures produced by big directors, and featuring big actors.

Hall Caine's story of the foster brother and sister, who after years of separation, meet again in Rome, where he is a socialist agitator and she is the companion of the Prince Minister, grips the audience instantly.

The interest grows constantly to the final scenes in which the founding's uncle, who has become Pope, is able to save the life of his nephew who has killed the Italian Prime Minister. The young man has been led to the killing by his love for Donna Roma, his foster sister. Her love, too, has reached great heights, and she assumes the guilt and stands trial for the murder.

The play produced on the legitimate stage was compelling, but this screen production makes the original seem commonplace and inadequate. Instead of a painted backdrop, the background is the actual background of the film. The actual photographing of the historic spots in which the novel is placed creates an illusion that greatly strengthens the play.

It impresses one with a sense of correctness and fitness and is the only background worthy of the dramatic acting of Pauline Frederick as Donna Roma. Miss Frederick's change from the butterfly-like mistress of the Prince Minister to a woman whose love uplifts her is portrayed as probably only she can do it. Thomas Holding makes a manly, engaging David, and Eubank Melish as the Pope, is the embodiment of papal dignity and benevolence.

The story itself is big—it is almost tremendous. Yet the picture version has taken this great story and developed it so that the thread of action and the development of the characters is quite plain at all times. Miss Frederick was beautiful, charming and effective in a very different part, and her support was all that might be asked, the types selected fitting perfectly with the characters one would look for after reading the book.

There will be two performances daily, at 2 p. m. and 8 p. m. All seats are reserved and are now on sale, the admission 25c.

Marguerite Clark At the Lyric Tonight. Jack Henderson Tomorrow

The idol of millions, Marguerite Clark in "Seven Sisters," a five reel romance will be the attraction at the Lyric tonight. "Seven Sisters" is just loaded with interesting action. You will enjoy every inch of it. The admission will be 10 cents to all tonight, and the first show starts at 8:30 promptly, then at ten minutes of eight and nine fifteen.

Jack Henderson makes his initial bow tomorrow in a gripping tale of modern society called "The Man Servant." Jack Henderson will be remembered as the star in "The Pink Lady," for three successive seasons. He also played opposite Mrs. Fiske in "Tess of the D'Urbilles" and "The Divorces," or you may have seen him in "The Three Twins," "The Girl Question," or "The Runaways." He has made an instantaneous hit in pictures and you will like his work in "The Man Servant."

Friday brings Julia Swayne (Gordon and Leo Delaney in a Vitaphone special feature, "The City Tigress," a thrilling dramatic offering, and Saturday the big feature will be Beverly Bayne and Darwin Karr in a beautiful three act romance "Hearts and Roses."

Tomorrow evening the "Romance of Elaine." Only four more nights until the last, and not least, will be the final triumph and marriage of the bewitching Elaine and the conclusion of all her troubles.

## THEATRICAL

## At The Sun

How they can do it for ten cents was the question heard several times yesterday by the parties who were talking among themselves about the big show on at the Sun Theater this week, for a ten cent admission, which just goes to show how hard Manager Hamilton is trying to emphasize that he is giving the biggest show ever offered anywhere for ten cents. "The Globe Trotters," an aggregation of good comedians and pretty girls opened a week's engagement yesterday, presenting a comedy called "Daddy," which served to introduce the various members of the company in pleasing songs and dances. The monologue of the black-faced comedian was particularly good. The chorus, five in number, made a number of changes of costume, all of which were bright and pretty. Three reels of pictures, one of them an Edison animated cartoon comedy, were all good, and kept the audience interested until the fall of the curtain.

Wednesday the "Globe Trotters" will make an entire change of program and will present the merry comedy, "The Bystander." Pictures will be changed every day.

If he finds that it is the nuisance that it is said to be, he will have the structure removed.

There is more Catarrh in this section of the country than at other places put together, and until the last few years (as supposed) to be incurable. For a great many years doctors pronounced it a incurable disease and practiced local remedies, and by constantly falling to cure with local treatment, produced incurable Catarrh. Science has now discovered that Catarrh is a constitutional disease and therefore requires constitutional treatment. Hyomei, C. H. Warner Bros. Co., Toledo, Ohio, is the only Constitutional cure for Catarrh. It acts directly on the blood and mucous surfaces of the system. They offer a free and detailed booklet for any case of Catarrh. TO TAKE CARE OF CHILDREN  
Miss Helen Worthington will remain home to assist her mother, Mrs. Finley Worthington, of Campbell avenue, in rearing the

little four-months-old baby and also a three-year-old daughter of the former's sister, Mrs. Grace Stewart, who was burned to death Labor Day while preparing a bottle of milk for her baby. Miss Worthington was employed in Columbus at the time of her sister's tragic death.

George Clifford, of Friendship, filed an affidavit in juvenile court Monday afternoon against Cora Phillips, a girl of that place, charging her with incorrigibility and abusing his child. Judge Beatty assigned the case for hearing for next Saturday morning.

**WANT ROADS NOT MONEY.**

We think that Prosecutor Micklethwait is laboring under a misconception as to what the public wants in the matter of county roads as otherwise he would not be talking about waiting and collecting money from contractors as punishment for their delay, after the work has been completed. The people are not after money. If they wanted to collect money from contractors, they would save it all by not improving roads. What is desired is action, not money. We want the road contracts completed with all possible speed so that they will be passable for the citizens of the county, and in the furtherance of this, the prosecutor can be of the greatest service to the people. We feel sure that Prosecutor Micklethwait can find a way to jack up and spur on contractors. He can at least make life such a burden for them that they will be glad to fulfill their obligations to the letter.

There is a certain amount of inconvenience necessarily attendant upon public improvements, but in Scioto county there has been delay and disregard of public rights that is almost criminal. The towpath work has dragged, the new road to the hill has lagged, temporary roads have not been kept up. The Harrisonville section is now almost cut off from the city, the Munn's Run, the Little Scioto and the Swanger Valley roads all being torn up and cut to pieces so that farmers can scarcely travel over them. These things should not be. It costs the farmers money and it costs the city money. People are thoroughly disgusted and they demand immediate and forceful action from those in authority. And our officials would earn the lasting gratitude of the public if they would make negligent contractors do their duty or else kick them out.

**CHURCH SOCIALS.**

We had an interesting talk Monday with Rev. Dr. J. C. Jackson, in regard to the address he made at the recent Methodist conference concerning church socials. Dr. Jackson says that he does not want to be understood as opposing the church social as such. He believes in them as a valuable adjunct to church and community life, but like everything else he believes they have their place and that they should not be abused. In some instances, Dr. Jackson says, congregations have come to regard the church social as a means to making up deficits in pastor's salaries, and in figuring up the budgets for the coming year, the official boards of some churches figure upon revenue from church socials as a part of the settled income of the church from which to meet general expenses. Thus during the past year in some church communities they were delinquent in pastor's salary and as an excuse would say, "We counted upon so much money from our socials but it rained each time we gave one and so we did not realize what we expected."

In these cases people donated the articles on sale and were then expected to buy them back, in this indirect way, apparently getting something for the money they were giving to religious work. It is this phase of the social that Dr. Jackson condemns. He holds that it is beneath the dignity of any man, beneath the dignity of religion and the church, to have to raise money for its legitimate expenses in this devious manner. "Men should be ashamed to give in this way. They should arrange to meet expenses in a straightforward manner, each giving according to his ability. Then have their social gatherings, make them as bright and enjoyable as it is possible to do and I am sure that under such circumstances they will be all the more appreciated by the congregation and its friends."

We are glad to be able to present Dr. Jackson's views more fully than was given in the brief newspaper report of his address to conference and we are in hearty accord with him in his desire to get the problem of church finance upon a more stable basis, and at the same time not do away with the social features incidental to church life. As we stated once before, in many country communities the church social is one of the most important events of the social life of the year, bringing both members and non-members together in innocent and pleasant enjoyment. It should not be abandoned until something better is found to take its place.

We really do not see how the board of county commissioners can overlook the valiant services of the Hon. Henry Wishon when they parcel out the two court house janitorships Wednesday. If there was anybody in these parts who did any heavier standing about on the street corners than Hen during the past few campaigns we would like to know his name. At least that is what the man who stands on the First National Bank corner every day in the year, holidays included, told us this morning and he ought to know a rival when he sees him.

The Columbus Journal prints George Ditty's picture and says that he may yet land the chief examinership of steam engineers, as the governor has promised to recall the appointment of the man who had been named, allegations being made that he was a strike breaker rather than a union man. Well, we'll bet that George will not let any of his light hide under a bushel if there is any chance for even a glimmer to shine out on our good young governor's pathway.

**AT THE WHEEL**

**WAS A GOOD OFFICIAL.**

M. W. Kehoe who lost his position as deputy inspector of work shops and factories for political reasons, had served on the job for more than six years. He made a splendid official, courteous and obliging was competent and he was firm when occasion required firmness. He had the confidence of those with whom he came in contact and he relies with the good will of the citizens of his district. It is to be regretted that Mr. Kehoe's successor did not come from among the Republicans of one of the industrial centers like Ironton or Portsmouth or Chillicothe or Jackson, as above all others it requires a man familiar with factory conditions and working conditions. Just what qualifications the Brown county man, who landed the place, has, no one here seems to know. Certainly Brown county is noted more for being an agricultural community than it is for being a manufacturing center.

**LAUGHTER NOT TEARS.**

And now comes the Bluefield Telegraph and indignantly denies that it or anybody else in West Virginia gets "riled" over that Thirteen Million debt saddled onto the state by the supreme court. Copying a recent little remark we made about the matter, the Telegraph says:

"As usual with out-of-gear papers the Portsmouth Times seems to think we owe this money to Virginia. We do not believe we owe it at all. There is a judgment, however, against West Virginia, but when anything is paid on that, it will go to the holders of Virginia bonds, which the court says West Virginia owes. West Virginia could raise the money and probably will have to do so, but no one is rawhiding us for it except some newspapers who would not get any of it, and who are apparently better collectors for the state than they are for themselves, according to our knowledge of the business. It does not 'rile' the boys. What the Times thinks is the condition it calls 'riled' is simply the way we laugh over here."

Yes, we have seen that sort of a laugh. It is the kind sometimes described as "a sickly laugh, out of one side of his mouth", and again as "a forced laugh in which there was no humor apparent to any one." From the tone of the Telegraph rejoinder we think either might fit its own peculiar brand of laughter.

They do say that it looked like the good old times when the gang reigned supreme and the county money flowed in a never-ending stream into the pockets of the faithful. Had come back out at the court house Monday when the new county commissioners were inducted into office. The old bunch were all among those present and they were willing to carry away every thing loose from the janitorship to the court house key.

**THOUGHTFUL ENOCH.**

Quite a number of girls and young ladies went wading in the creek one day last week on Mel Hick's place. Enoch Chase worried for fear they might get in too deep and slipped along behind to kind of watch over them. In his anxiety he leaned too far over the bank and fell into the creek, where the girls were. As the deepest water is only about a foot deep Enoch didn't need to be so uneasy.—Larned, Kansas, Tiller and Toller.

Speaking of the activity in the steel business, Henry Clews says it is not altogether dependent upon war orders. Railroads are shopping around and placing orders, he says. There has also been satisfactory improvement in the legitimate export trade, the export divisions of some of our largest concerns being rushed with business of the regular type and not munitions of war. And when the war is over American steel manufacturers will be called upon to furnish much of the material needed for reconstruction in European countries. Altogether the outlook is quite hopeful and encouraging.

We refuse to get excited because the state moving censor board has refused to pass "Hypocrites". People do not have to go to a movie show to take a lesson in hypocrisy. All they have to do is to stand on the street corner of any town and watch the procession go by. They can usually pick out enough "hypocrites" to last them for a time.

We were highly edified the other day in reading in one column of a paper where German sympathizers were protesting against a loan to the Allies and then reading in the next column where Germany was figuring on paying back a loan she had made here.

Judging by the eruption of our able, brilliant and eloquent young prosecuting attorney at the meeting of the new board of county commissioners Monday some of the shots fired at him Saturday by former commissioner "Billy" Bennett must have hit close home. Anyway Bennett seemed to think that like another Joseph, our own Joseph was wearing a coat of many colors.

Go away from home to get the news. The Columbus Dispatch says that Artie DeVoss secured his state appointment through the insistence and persistence of Chas. E. Hard, vice chairman of the Republican state executive committee.

New York, Sept. 21.—The Gotham lynx-eyed sleuths are on the trail of what is believed to be the "meanest man". He derives great pleasure from inserting "Want Ads" in the metropolitan journals and then watching hundreds of jobless men and women trudge to the address only to be fooled.

He has been at his strange vocation for some weeks. The address may be of a millionaire on Fifth Avenue or it may be some lowly tenement on the East Side. Many of the jobless folk are forced to ride to the address and the spending of a nickel uselessly is a hardship.

There is a law in New York state which makes it a penitentiary offense to insert an advertisement in a newspaper for a position which does not exist and the newspapers are going to make an example of this Want-Ad comedian. Big rewards have been offered and amateur detectives are on the trail also.

W. B. Walker, a North Carolinian who cuts a figure in the advertising world in New York, was dining at his club when he heard the news that South Carolina had swung into the State-wide prohibition columns.

"What will the Governor of North Carolina say now?" asked a friend.

"What else will there be for him to say?" was Walker's snappy rejoinder.

Under our higher form of civilization the murderous lower East Side politics passes as an exhibition of the workings of free political institutions in these glorious United States.

The arrest of Mike Rofano, East Side politician and lawyer, accused of hiring murderers, has revealed a bloody tale of crime. There were murders, stabbings and throat cuttings every day. Club houses were wrecked and many merchants were driven out of business.

Jean de St. Cyr, known as one of the best dressed men in New York, is back from California, where he has been on his honeymoon. St. Cyr recently married a widow who had two million dollars. When he went West he had two trunks full of nothing but shirts.

William M. Briggs, of 720 Waller  
street, Tuesday noon, following a  
brief illness. Mr. Briggs and wife  
arrived in this city three weeks ago  
on a visit to their son, and at that  
time was in his customary good  
health. Last Thursday night he  
was stricken with paralysis, and  
from that time his condition grew  
steadily worse until the end came.  
Mr. Briggs was born at the old  
Briggs homestead on the Chillicothe  
pike on June 13, 1834. In 1868 he  
moved to Missouri, where he has re-  
sided ever since. He followed the  
occupation of a farmer for many  
years, but of late years he has lived  
a retired life.

Mr. Briggs is survived by a widow  
and ten children: William M.  
Briggs, treasurer of the Gilbert  
Grocery Company of this city;  
George A. Briggs, of Kansas City;  
E. C. Briggs, Muskogee, Okla.; Mrs.  
Inez Fragne, of Council Bluffs, Ia.;  
Mrs. Maggie Handy, of Loveland,  
Col.; Mrs. Jessie Walls, of Garden  
City, Kansas; Mrs. Lulu Williams,  
of Stenbury, Mo.; Mrs. Susan Saw-  
yer, of Kansas City; Mrs. Grace  
Walls, of Lincoln, Neb.; Mrs. Dr.  
Jack Neal of Kansas City, Mo. The  
last named was at the bedside of her  
father when he passed away.  
Arrangements have been made for  
the shipment of the body to Kansas  
City early Wednesday morning,  
where the final funeral services will  
be held. Mr. and Mrs. W. M.  
Briggs, the widow and daughter,  
Mrs. Frank Neal, will accompany the  
body to that city.

**Ruth Devers**  
Little Ruth Devers, the grand-  
daughter of Mr. and Mrs. A. J.  
Devers, of Highland Park, Ill., was  
born April 20, 1915, and departed  
this life September 18, 1915, aged  
4 months 29 days.  
The grandparents were visit-  
ing relatives in Sciotoville when  
God called the little one to join  
his angel band.  
The funeral was held at Scioto-  
ville at 2 o'clock Sunday after-  
noon. A quartet of girls sang  
"Over the River" very beauti-  
fully. Interment took place in the  
Wheelerburg cemetery.

## NEW YORK STOCKS

New York, Sept. 21.—The  
familiar upward swing of the  
special stocks was repeated at  
the outset of today's trading. Mo-  
tor shares again being the most  
conspicuous features. Willys-Over-  
land rose two points to the new  
high price of 212, soon increasing  
its gain to 219. Studebaker opac-  
ted half a point down, but soon ad-  
vanced 4 1/4 to the new high price  
of 144 1/4, and General Motors also  
broke all previous records with  
its advances of 3 1/2 to 299 1/2. Other  
so-called war shares were up 1 to  
2 points, but United States Steel  
opened a fraction lower. Rail-  
roads which recently gave prom-  
ise of resuming their place among  
the leaders were dull and frac-  
tionally lower. Changes else-  
where were nominal.

Automobile issues continued to  
further the market. General Mo-  
tors increased its gain to 310 or  
47 points above the close of last  
Thursday, when the fifty per cent  
dividend was declared.

Maxwell common rose 5 1/4 to  
35 1/4, the first preferred 1 1/4 to  
93 1/4 and the second preferred 5  
to 44 1/4. American Smelter was  
again strongest of the metal group,  
adding 1 1/4 to yesterday's advance  
at 85 1/4. Reactionary tendencies  
were shown by Bethlehem Steel,  
which broke 9 to 336, Crucible  
Steel, Colorado Fuel, United  
States Air Brake and some of the  
railways. Bonds were irregular.

Electrical equipments, Ameri-  
can Car and Bethlehem Steel pre-  
ferred were taken up later, all at  
substantial advances. The clos-  
ing was irregular.

Further extraordinary advances  
in specialties overshadowed all  
other features in today's dealings  
with a reactionary trend to the  
railways.

Besides, advices were at hand that  
country shipments to Minneapolis  
had grown in volume. At first,  
however, prices displayed a little  
firmness owing to a large decrease  
in the European visible supply,  
especially the British stock. The  
opening which ranged from 1/4 off  
to 1/4 and 3/8 up, with December  
at 93 1/4 to 93 1/2, and May at 96 1/4  
to 97 1/4, was followed by a slight  
general advance and then a de-  
cided setback all around.

Corn weakened with wheat.  
First reports had little effect on  
prices. After opening 3/4 lower to  
1/2 advance the market steadied  
well under last night's level.  
Oats held comparatively steady.  
There was no pressure to sell.  
Some strength developed in pro-  
visions. The stimulus appeared  
to come from the scantiness of  
hog receipts throughout the west.  
Foreign buying of futures led  
afterward to a rally which, how-  
ever, was not well maintained.  
September was firmer than other  
options because of an official  
ruling that deliveries of No. 1  
velvet chaff with dockage would  
not be acceptable on contract  
here. The close was unsettled, 3/4  
net lower to 1/2 advance with De-  
cember at 93 and May at 96 1/4.

Later reports of freezing tem-  
peratures caused something of a  
recovery. The close was steady  
at a range half lower to 1/4 high-  
er than last night.

## EXPECT 6,000 STUDENTS AT O. S. U. THIS YEAR

Columbus, Sept. 21.—Total enrollment of 6,000 students for Ohio State University was expected by officials of that institution when the autumn semester opened today. This registration would make the university rank seventh largest in the United States, it is estimated, instead of eleventh, its standing last year. The figures include 1100 registered in the summer school, most of whom will not be in attendance throughout the main school year. The enrollment last year was about 5,200 and early today the advance registration was 400 more than the corresponding time last year. Preliminary reports indicated each of the 11 colleges showed a gain in attendance. This was true in the medical college, despite the new requirement of two years' prerequisite study in liberal arts courses, and in the College of Law, where a new law requires one year of advance college credit. This was pledge day for fraternities and sororities at the university and strenuous "rushing" and "bidding" were the order of the day.

## WILL STUDY EXCHANGE SITUATION IN FRANCE

Paris, Sept. 21.—The mission of Pierre Barle, finance commissioner of Russia, who now is in Paris to confer with Minister of Finance Ribot and later will go to England to consult Reginald McKenna, chancellor of the exchequer, is to study financial questions, notably that of exchange, he told newspaper correspondents last night. "The stability of the franc and the pound," M. Barle declared, "are as important to the allies as that of the ruble and Franco-British mission to America marks a great step. The solidarity of the allies thus is demonstrated to the whole world. It is to be hoped the bonds of sympathy and solidarity between the allies governments will be extended to the great banks of the nations. We have seen the fruitful results of the convention between the banks of France and Russia last winter to liquidate outstanding accounts with regard to Russia."

## WRECK AT HAMDEN

No. 55, a through B. & O. S. W. train running between New York and St. Louis, was wrecked at Summit, two miles west of Hamden, Monday night. ## Chilli Republicans Scrap Over Willis

Chillicothe, Sept. 21.—Governor Frank B. Willis opened the Farmers' Fall Festival of Ross county in this city last night. Great rivalry had existed between the two Republican factions as to who was to receive him when he was to arrive on a 7:30 o'clock traction car. Not to be outdone, G. W. C. Perry, who had not been placed on the reception committee by the Fall Festival committee, drove to Chillicothe and brought him here in an automobile. At first the regular committee decided not to participate in the reception, but matters were arranged and all escorted him to the city. The governor refrained from politics in his address.

## Rheumatism

A Home Care Given by One Who Had It

In the spring of 1913 I was attacked by Malarial and Rheumatic Rheumatism. I suffered so badly that I was unable to leave my bed. I tried every remedy I could find, but nothing helped. Finally, I found a remedy that cured me completely, and I had never returned. I have given it to a number of my friends who were suffering from Rheumatism, and it has cured them all. I have given it to a number of my friends who were suffering from Rheumatism, and it has cured them all. # PORTSMOUTH STORES HAVE OPENINGS TONIGHT

## Everybody Invited To See New Styles And Enjoy Music

Typically fall in temperature with an autumnal sombre sky and cheerless sun, Tuesday ushered in the fall openings of local department, millinery and ready-to-wear garment stores. A number of stores conducted their openings all day. Others introduced the formality at noon while others are waiting until this evening to present their new fall styles. The public is cordially invited to attend this annual presentation of fall finery. Music will enliven the environments at a number of the stores.

From those stores who will not observe a formal opening comes cordial invitations for inspection of the stock during the hours when the stores are open.

Portsmouth women folks will tonight unite in observing their annual inspection and admiration of the season's authentic and latest offerings in wearing apparel.

### Marting's

All departments of Marting's big department store are in readiness for the annual fall opening this evening, which will furnish its patrons an advance showing of the early fall styles in women's wearing apparel.

An attractive display in the ready-to-wear department are fashion's latest decrees in suits, coats, dresses, shirt waists, fur coats, novelties.

Suits are being shown principally in three styles, semi-fitting, flared and belted. Norfolk styles. The dressier suits are velvets, gabardines, poplins and broad cloth. For semi-dress and street wear the most popular materials are serges and Scotch mixtures, mostly fur-trimmed. Coats vary in length from 30 to 36 inches.

Long effects predominate among the coats, the length varying from three-quarter length to full length, made with a wide flare at the bottom, mostly fur-trimmed, in velvets, corduroys and novelty mixtures.

The dresses are principally combination effects, with Georgettes, crepe de chine, crepe metors, the flaring materials. A few taffetas are shown, but they are not as prominent as the softer materials. Quite a few plaids and serge combinations are in evidence, with crepe and Princess effects.

The most popular shirt waists are of Georgette, crepe de chine, blue and white, the plainer styles predominating. A few lace waists are shown among the more dressy styles.

Marting's are showing a bigger line of furs than ever before in the history of the store, and they are very good this season, both in trimming and make up. They are principally American furs, which are 40 per cent cheaper this year on account of the European war. Among them are seen fox, mink, raccoon, black and blue and colors. Maniboes are very popular this year.

The firm also carrying a big line of Annette Kellermann sweaters, silk and worsted, which are expected to be popular with the women of this season.

As usual, the millinery department is showing the very latest styles in women's headgear. Red, green and purple seem to be the leading colors. Large and small shapes are in good form, while the Colonial styles are still

very much in vogue.

simplicity seems to mark the trimmings this season, and fur is a predominating note in the hat trimmings. The large buckle and mannish walking hat are very much in evidence, as is the large black velvet hat.

The silk department down stairs offers attractive inducements to the patrons of the store. In fact, every department of the store has on its best dress for the horde of feminine eyes that will feast upon the elegant displays this evening. Special music will be furnished by the Exhibit Theatre Trio, composed of Chris Hansen, violinist, James Gilbert, cornetist, and Miss Law, piano.

### Andersons' Opening

At seven o'clock this evening (Tuesday) Andersons' great store will throw open its doors upon the Annual Autumn Events known as Fall Opening, and while the Buckeye State Band Orchestra is giving a two hours' concert in the first floor gallery, no doubt thousands of our Portsmouth citizens will review the handsomely decorated store which will apparently stand at attention for the grand review. Every section of Portsmouth's Big Store has been properly groomed for this notable occasion and a peep behind the scenes today revealed to us a glimpse of what a waiting public will enthusiastically greet this evening.

Particular attention will, of course, be attracted to the piece goods on the first floor and the ready-to-wear and millinery on the second, although even the house furnishings and the carpet and curtain galleries are laden with exhibits of what the new season has brought for them, and many a woman is as much interested in the new things for her home as she is for the new styles in drapings for herself.

The new silks and the new dress goods, as staple and homely as the names sound, are resplendent with new shades, new weaves and new patterns that must be admired and these are alluringly displayed to show at a glance the wonderful effects that may be obtained by the use of these new styles. And the trimmings and laces—all work harmoniously together for the perfection of models sanctioned by fashion's latest dictates.

The suit and dress section, always an interesting place, now shows the new suits, many displaying a decided Russia note, struck with fur trimmings, embroidery and coat effects. Nothing could be more in season than the displays of splendid suits and dresses for women, and misses.

Without a doubt, the great rush of the evening will be directed toward the millinery trenches, already munitioned with the New York and Paris creations and ready to satisfy all invaders, for the new styles are as varied as they are beautiful and most any head may be successfully adorned by a number of different creations. Yes, it will be easy to select hats this season. As might be expected, military fashions of today and military fashions of bygone days have influenced less modes to such an extent that one sees a turban copied from those worn by the officers of the First Empire side by side with George's Turban Turco, Caroline Rebaux gives us the Turban Rouille and the distinguished buckled hat of the periode Napoleon.

Taffeta silks have held their own and are shown in all colors.

Jeanne Lanvin presents a petit callot a jugulaire.

Of course the shoe section and the men's furniture store are dressed and trimmed for the occasion for truly a goodly number of men always attend Andersons' opening and the firm encourages them in their attendance. The idea is erroneous that Andersons' openings are for women only. Many, many men enjoy them, all ways, almost as much as the women, and the men are not only invited but are expected to attend.

### Bragdon's Opening

The ready-to-wear department in the Bragdon store is in gala attire today in readiness for the fall opening this evening. The large room is beautifully decorated in palms, ferns and autumn leaves and the handsome fall garments are hung for display on large tree branches, the signs over the different cases are electric lighted and the room shows the artistic work of Mr. Harry Boyd, who left nothing undone to show off the beautiful ready-to-wear garments carried by this very popular firm. The popular length of the suit coats is thirty inches. They are made up of various kinds of handsome cloth, most of which are trimmed in fur and braid. The coats are made with high collars which can be turned down so that they may be worn high or low. Plaid fabrics are used in the separate coats such as plush, velvets, fancy corduroy and fur. The popular colors are African brown, green and navy blue, the last of which is always good.

The dress skirts are very pretty this year, many having plaits in the skirts. The separate waists are made of silks, satins, laces and net and are unusually pretty designs. The children's ready-to-wear garments are also unusually attractive.

On entering the store one is attracted to the beautiful windows with the display of handsome materials, trimmings, furs, suits and separate coats. There will be no opening in the store only in the ready-to-wear department which is well worth seeing. During the evening music from an Edison disc phonograph will add greatly to the attraction of the pretty opening.

### A. Brunner & Sons

In perfect readiness for its fall opening is A. Brunner and Sons handsomely appointed dry goods store on Gallia and this event, which is always well attended, is scheduled to take place between the hours of seven and nine o'clock tonight. Music will be furnished by the Englebrecht Trio. Potted plants and cut flowers have been profusely used in a decorative way and the store never looked prettier nor more attractive than it does for its fall opening tonight.

All the season's styles in silks, dress goods and in the ready-to-wear department so popular with the women will be shown in profusion as this progressive firm keeps right up to the minute in the way of the styles laid down by the decree of fashion.

In the dress goods department, which for years has been in charge of a most faithful employee, Miss Maggie Flynn, all the new hues and weaves are shown in an endless variety. Navy blue, good old fashioned blue, comes into its own this fall and many of the smarter fall frocks will be of this shade embellished with braid and buttons to match. Of course blacks have not lost any of their popularity and stripes of various widths will have much favor with the smart dressers this fall.

The more pronounced hues, however, have retreated in favor of navy blue and black, the reigning colors of the new season.

Taffeta silks have held their own and are shown in all colors.

Liberty Clothing Company

All new styles is to be found in the stock of the Liberty Clothing company which opens its 1915 season in its new home on Gallia street. Manager Johnson has shown excellent judgment in his selections of fall offerings and patrons of the store will find the best offerings of the larger markets brought right to Portsmouth.

The stock is complete and carries a distinct line of goods in every respect. Cordial invitation is extended to the public to visit the Liberty's new store and to inspect the elaborate display of fall goods.

The fall showing of millinery and wearing apparel at the Labold store on Second street is an elaborate one and featured with original and authentic styles and materials. While no formal opening is to be held here the public is invited to inspect the stock. All the styles of the bigger markets are reflected in the stock on display at the Labold store.

A visit to the dress goods department of the Brunner store tonight will mean a treat to all visitors as arrayed in a tempting manner will be all the popular fall fabrics.

In the ready-to-wear department which is in charge of Miss Libbie McMurray all the season's styles in coats will be shown in great numbers. The coat that will have the vogue will be 34 inches in length and the shades will be blue and black. Corduroys will be very popular and they too will be shown in blues, blacks and Niagara brown, one of the newest shades.

The Brunner store will be thronged with people tonight all eager to glimpse what Dame Fashion has decreed for the styles of the new season.

### The Fashion

In its new home, Gay and Gallia street, The Fashion is showing a pretentious array of women's ready-to-wear garments and millinery. Manager A. Kline after spending ten days in New York and other eastern markets secured many splendid samples of late styles and fabrics. He has them in attractive array at the Fashion but owing to inability to secure all the stock he had ordered he has postponed a formal opening until later. However all are invited to inspect the stock on hand at any time during the open hours of the store. The Fashion bears the reputation of having up to the minute goods and its fall line this year more than sustains that reputation.

### The Style Shop

In readiness for the fall season the Style Shop will be thrown open this season with a representative showing of early fall styles of ready-to-wear for those feminine buyers who aim to keep abreast of fashion's dictates.

Prominent among the firm's display is a good showing of suits and coats, fur-trimmed, of the most popular shades and materials in the reigning styles. The Style Shop has always prided itself on its ready-to-wear suit and coat department, and this season it has excelled all former efforts.

Pile fabric coats and novelties in corduroys and velvets are prominent in the display, which also shows silk, serge and taffeta suits.

Some charming charmuse and crepe de chine dresses are sure to catch the feminine eye. Gabardines, poplins and taffetas are most prominent in the skirt line.

In the shirtwaist department, crepe de chine, Georgette, crepes, fancy voiles, plaids and stripes predominate.

The millinery department is in charge of new manager this year, H. J. Shearman, of New York City, whose wide experience insures the best in millinery for the patrons of the store this season. The stock is by no means complete for the entire season at this time, but a representative showing of the early fall styles will be on display.

The store has been attractively decorated for the opening, and presents a pleasing appearance. Special music will be furnished during the hours of the opening.

### Liberty Clothing Company

All new styles is to be found in the stock of the Liberty Clothing company which opens its 1915 season in its new home on Gallia street. Mrs. Brown has always borne the reputation for selling the most exclusive and authentic millinery in the city and in the selection of her fall styles has endeavored to retain this reputation. She has brought to Portsmouth excellent styles and fabrics and the store presents an inviting appearance. Styles of a wide selection, pretty, exclusive, smart and correct, are to be found. The store is prettily decorated for the formal introduction of fall millinery for the year 1915. Every one is invited to inspect the exhibition of stock at this store tonight.

### Mrs. Anne Reis

One of the features of the introduction of fall millinery at the store of Mrs. Anne Reis on Gallia street will be living models showing the various styles. These exhibits will be held from seven until ten tonight. Every effort has been made by Mrs. Reis to provide her patrons with the season's latest and most pronounced styles. She has secured the various markets for exclusive materials, and with a force of expert milliners has introduced many original ideas into her hats. When you step into the store you are deeply impressed with the splendid array. Many attractive hats are to be found and everybody is cordially invited to inspect the smart array tonight.

### Joseph Brown

One of the prettiest stores in the city these days is the Joseph Brown store on Gallia street. All of the season's latest styles in women's ready-to-wear garments are shown and smart dresses should not overlook this firm's beautiful windows while worshipping at the shrine of fashion tonight.

### The When Store

The When Store, one of the newest retail stores in the city recently held its opening, and it was a fine success. The store is still beautifully decorated and The When bids fair to become one of the city's most popular stores.

### Minnie Weichens

It is indeed an inviting scene to step into the Minnie Weichens millinery store on Chillicothe street and see the excellent display of fall finery for the head. There are some very pretty patterns, odd shapes and original designs. A treat is in store for all who inspect the stock offered here. Efforts to secure exclusive and smart millinery have been rewarded as the stock is very large and there is an abundance of patterns and styles to select from.

been using it twice a day.

HATTIE.

Too much alcohol will dry the skin and make it wrinkle easily. A good cold cream is the best application for regular use.

Dear Miss Wise.—We were talking the other day about marriage and where one could get a license besides one's own country, so we decided to let you settle the question for us. We don't want to run off and get married but just want to add to our knowledge of things in general. Can a license be produced in Canada, also Michigan or any other state?

INFORMATION SEEKERS.

A couple can marry in Canada without establishing a residence there, but not in the states, unless they swear falsely, claiming that place for their home.

Dear Miss Wise.—Please tell me how to wash white crepe de chine so that it will not turn yellow.

DOROTHY.

Any white silk may be washed several times without turning yellow if lukewarm water is used with white soap, and if the silk is dried in a dark room or at night. But after repeated washings all white silk will turn color. When it does this get a bottle of red ink or a nickel's worth of red crepe paper and color the waist pink.

Dear Miss Wise.—What was the name of the Titanic's twin sister, and why are they called twins?

A STUDENT.

The Majestic. They are called

twins because of similar size and construction.

Dear Miss Wise.—Will you please tell me how to clean fly-specks off light window shades?

HOUSEWIFE.

Remove the fly-specks by rubbing gently with very fine sandpaper, then clean by using a cloth wrung-out of one pint hot water and three table-spoonsful benzine. Keep benzine away from fire. Dry well with soft cloth and if shades are white rub lightly with powdered starch.

Dear Miss Wise.—I would like to know what is good to take the shine off the back of a skirt?

STENOGRAPHER.

The removal of "shine" from clothes that have been worn a long time is only temporary; the different processes must be repeated frequently. Sponge the serge with hot vinegar, then with hot ammonia. Blue serge will also lose its gloss if sponged with bluing water and pressed under thin muslin.

Dear Miss Wise.—Will you kindly print a recipe for marsh-mallow filling to go on a cake.

THIRD STREET LADY.

Boil two cups of sugar and one of water until it ropes. Before removing it from the stove add one-half pound of fresh marshmallows, broken in small pieces; when these have dissolved pour the mess gradually into the well-beaten whites of two eggs. Beat continually until nearly cold when it is time to spread the cakes.

## COCOANUT OIL MAKES A SPLENDID SHAMPOO

If you want to keep your hair in good condition, the less soap you use the better. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. But plain undiluted coconut oil (which is pure and entirely greaseless), is much better than soap of any kind you can use for shampooing, as this can't possibly injure the hair.

Simply massage your hair with water and rub it in. One of two teaspoonsful will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get multigrain coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

## Has New Stomach Connection

As the result of one of the most remarkable operations ever performed in the city, K. R. Gilbert, of 1517 High street was removed from Hempstead hospital today, seemingly well on the road to complete recovery, after having been face to face with death by starvation for days. For three weeks Gilbert was unable to take nourishment, due to a complete closure of the outlet of the stomach, and it was decided that only an operation could save him.

Dr. Carl Braunlin and Dr. Walter Braunlin, who had the case in charge, proceeded to make an entirely new passage way from the stomach, connecting the stomach with a coil of the intestines. The delicate operation was a complete success, and now Mr. Gilbert is able to take nourishment as before.

Judge Thomas has denied the petition of Elizabeth Churchill for a divorce from her husband, Albert Churchill. The case was heard several days ago and taken under advisement.

## Winner Of World's Series May Make Trip To Pacific Coast

Chicago, Sept. 21.—The plea of the Federal League for participation in the world's series will not be granted, President B. E. Johnson, of the American League, himself a member of the National Commission, said today.

President Johnson said he had received the letter of James A. Gilmore, president of the Federal League, asking that the Federal League be permitted to play the winner of the series, but asserted that he probably wouldn't answer it.

"I suppose, however, that Chairman Herrmann, of the national commission, will acknowledge receipt of the letter," Johnson said. "There doesn't seem to be much chance for the Federal League to break into the world's series."

It is probable that the winners of the series will break a long established rule by going to the Panama-Pacific Exposition for a post-season series of games with a picked team from the Pacific Coast league.

## Already A Citizen Yet Tabor Sought To Be Naturalized

An unusual incident occurred in common pleas court Tuesday morning at the hearing on applications for naturalization papers, when it developed that a man was seeking U. S. citizenship who was born in this country Joseph Tabor, a steel plant employee, of New Boston, is the man who has been a citizen of the United States ever since his birth, but who has gone to all sorts of trouble to secure naturalization papers, ignorant of his rights.

In the examination of Tabor by J. A. G. Stitzer, naturalization examiner of Pittsburgh, it was brought out that Tabor was born in Pittsburgh in 1884. His parents were of Russian birth, and before he was six years old, took him back to the old country, settling in Germany. In less than a year Tabor, then not quite seven years old, ran away from home, going to Russia. He remained in Russia until he was 13, when he came to America.

## TEUTONIC CAMPAIGN STARTS IN SERBIA

Berlin, Sept. 21 (via London).—Official reports from Austrian and German headquarters and dispatches from the Balkan capitals show that the long-expected Teutonic campaign against Serbia has now begun. Austrian and German artillery today is bombarding Serbian positions at various points along the hundred mile front between the mouths of the Drina and Morava rivers.

This action undoubtedly is intended as a cover to the throwing of a force across the river and the seizure of a bridgehead whence the new "steam roller" can be started. Just where a crossing will be attempted, is unknown.

## PLANS FOR BIG LOAN NEARING COMPLETION

New York, Sept. 21.—Negotiations for the flotation of a credit loan to Great Britain and France of \$600,000,000 to \$800,000,000 are rapidly nearing conclusion it was reported today. Announcement that a definite agreement had been reached was expected by the American financiers within a few days, possibly by the close of the week. There are several minor matters yet to be decided upon. One of the chief of these was said to be the exact amount of the loan. No decision, it was reported had been reached as yet upon this point. Several matters still undisposed of will enter into the decision as to the amount and this may not be agreed upon till the last minute.

The Anglo-French financial commission continued today its negotiations with American bankers. One of the chief subjects said to be under discussion was the inclusion of the conversion privilege in the five or ten year bonds to be issued by Great Britain and France for the loan. Plans were said to be in the making to grant the holders of the short term bonds the privilege of converting them into British and French joint 4 1/2 percent bonds of a longer term at the maturity of the short term bonds.

The life of the long-term bonds, it was said, was yet to be agreed upon. It is understood positively, however, that they would not run for fifty years as had been suggested. It was thought twenty years, possibly twenty-five, would be the period of the long-term bonds.

A report that there had been a hitch in the negotiations was authoritatively denied by bankers in touch with the negotiations.

# "SLIM" SULLIVAN, FORMER PORTSMOUTH RESIDENT, TO DRIVE A WAR AUTO

Dodging German bullets will soon be the daily occupation of a former Portsmouth boy, Neil ("Slim") Sullivan, who has signed a contract with the English Consul to drive a war dispatch auto at two pound sterling per day.

This information was contained in a letter received from "Slim" by Frank Stanton, one of the proprietors of the Smoke House, Monday.

Writing from New York "Slim" informed Mr. Stanton that at a competitive test of skill in the driving of automobiles, he had been selected by the English Consul and had signed a contract at the conclusion of the drive. He admitted that he went into the contest with slight hopes of coming out the winner, but that he threw aside all care and made the machine cut up all sorts of stunts, "turning corners on two wheels and turning around on a three cent piece." He stated that he feared sometimes that the machine he was driving would turn turtle and bury him beneath the top, but luck was with him and at the conclusion of an hour's test he came out with colors flying and a whole car.

The Consul jumped into the car and was driven to his headquarters.

where Sullivan soon attached his signature to a contract to drive a war dispatch auto. He was reminded of the fact that the auto would be compelled at times to be at the front and that he would be subjected to many dangers, the probability being that he would be a target for a German shell or bullet. However, "Slim" could not be scared and soon had signed the papers.

He writes that he expects to leave at once for Pittsburgh to visit his parents. He will remain there for two weeks and then leave for Montreal, Can., from

which point he will board a steamer for England. As soon as he reaches Montreal, his salary will be paid and as soon as he reaches England he will receive his first check.

Young Sullivan, who is the son of C. P. Sullivan, who is a government inspector and who superintended the building of the new addition of the Portsmouth post office building, is a "dare-devil" sort of a chap, and his new field of action will have enough excitement in it to make life worth living—for "Slim."

## RESIGNATION WAY TO PROMOTION

The selection of a new police chief is not entirely without its strange features. "It's the man who resigns his job who gets promoted," remarked one disappointed candidate Tuesday, "for didn't Grant Cooper resign as patrolman only to be promoted to captain and now comes Allen in for highest honors. He too resigned from the police force last year."

## STEAMBOAT EXCURSION WEDNESDAY

Portsmouth entertained a real clown Tuesday in the personage of J. B. Morgan, advance man of the steamer Homer Smith, one of the famed excursion boats which is to give a moonlight excursion from this point Wednesday evening, leaving the wharf at 8 o'clock and returning at 11 o'clock p. m. Mr. Morgan was diked out in a uniform of many hues and colors, while his round and jolly face was bedecked in all colors of the rainbow. He attracted much attention as he paced the streets, handing out bills advertising the excursion which no doubt will be well patronized. The round trip for adults will be 50c and for children 25c. The steamer has just returned from the city of Louisville, where it has been in the excursion business for the past four months. There will be plenty of music and the trip promises to be a most enjoyable one. No intoxicating liquors will be sold or permitted on board the steamer.

Wait and see the new Reo, \$875. Stahler.

## SAGE TEA PUTS LIFE AND COLOR IN HAIR

Don't stay gray! Sage Tea and Sulphur dyes hair so naturally that nobody can tell.

You can turn gray, faded hair beautifully dark, lustre almost over night if you'll get a 50 cent bottle of "Weyb's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it dyes the hair so naturally and it keeps the hair so soft and healthy that no one can tell it has been dyed.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all done up, scalp itching and falling hair stop.

This is the age of youth. Gray-haired, unattractive folk aren't wanted around, so get busy with Weyb's Sage and Sulphur to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

## Do You Feel Headachy? Look To Your Stomach

It is an unusual thing for a druggist to sell medicine under a guarantee to refund the money if it does not cure. Yet this is the way Wurster Dose, the popular druggist, is selling Mi-na, the standard dyspepsia remedy. Never before have they had so large a number of customers tell them that a medicine has been successful as with Mi-na. People who a few months ago looked like walking skeletons have put on flesh and today are sturdy and vigorous with perfect digestion and good health.

There is no longer any need for anyone suffering or taking their friends suffer on account of dyspepsia. Mi-na can always be relied upon. The percentage of cures is so great that there is little risk to them in guaranteeing to return the money if the medicine does not relieve. An they stand ready to do so without any question.

Headaches, all forms of indigestion, specks before the eyes, dizzy feelings, poor sleep, rashes in the face and all forms of liver trouble are helped by Mi-na. A few days' treatment should show considerable gain in health while a complete cure often follows rapidly.

These days are the best in the whole year for the enjoyment of food health, and Mi-na will put you in such perfect condition that you can enjoy every minute of them.

# Many Inquiries Are Made About Flood Wall Bonds

Judging from the number of inquiries being received, the \$70,000 bonds to provide the means for extending the flood wall from Front and Chillicothe street east to Off-ness street, and replacing the Scioto Point, are sure to sell October 6th.

To date about 35 inquiries have been received, which is considerably more than usual. The city council will meet the night of October 6th, and resolutions to award, and an ordinance approving plans will be

passed at the same session. The director of public service will then have three weeks' time in which to advertise the work, so that the latter part of October, or beginning of November should see the big improvement well under way.

City Engineer George S. Wilhelm, who has taken up the matter of flood pumps with various pump works, received sketches and recommendations from Henry P. Worthington, a pump expert of Cincinnati, Tuesday morning.

Mr. Wilhelm's plans provide for locating the pumping station at the northwest corner of the old Mill street pumping station, the present stone wall of the lot to be razed to the surface. The pumps will discharge westward. Mr. Wilhelm has also provided for a flood wall driveway between the old Mill street station and the waterworks barn, the latter to be inside the flood wall, while the station will be outside the wall.

## FACE COVERED WITH SMALL PIMPLES

Itched Badly. Disfigured for Time Being. Used Cuticura Soap and Ointment. Made Complexion Clearer. Face Entirely Healed.

New Canby, Mo.—"The first thing I began to notice some eruptions on my face. They were small pimples forming. They would itch so badly that I could hardly keep from picking at them. When I did it seemed as if they kept spreading. I was distressed for this time being; my face was totally covered with the pimples. They were so bad I hated to have a person see my face. It was in this condition a year or over."

"I read in the paper of how good Cuticura Soap and Ointment were and I resolved to try them. After I used them several times they seemed to heal the places and make my complexion clearer. I spread the Ointment on my face and let it remain for about five minutes and then washed it off with very hot water and Cuticura Soap. My face was entirely healed." (Signed) Miss Flossie Hephworth, June 20, 1914.

Cuticura Soap and Ointment do so much for your complexion, red, rough hands, and dry, thin and falling hair, and cost so little, that it is almost criminal not to use them.

# OVER 2,000 DINERS TO OPEN KORN KARNIVAL

## Novel Street Meal Assured Success; Parades Will Set A New Mark In City

Definite arrangements for the "Two Mile Dinner," the opening feature of the Korn Karnival on Wednesday morning, were made at a meeting Monday evening of the executive board of the Korn Karnival committee and representatives from the different churches that will assist in caring for the dinners.

Representatives from eight churches were present, and to each was assigned a block. It was unanimously decided that the menu should consist of a meat, potatoes, baked beans, potato salad, pie and coffee.

The following assignment of blocks was made: Washington street, Second to Third street, First Christian church; Third to Fourth, Fourth Street M. E. church; Fourth to Fifth, Beman M. E.; Fifth to Sixth, German Evangelical; Sixth to Seventh, Manly M. E.; Seventh to Eighth and Eighth to Ninth, not assigned; Sixth street, east of Chillicothe, First Presbyterian; Sixth street, west of Chillicothe, Holy Redeemer; Fourth street, west of Chillicothe street, All Saints Episcopal.

Each block will permit of 225 persons standing on both sides of the table, and each church pledged itself to dispose of that many tickets. Three or four more blocks will be assigned before the final arrangements are made, it is thought. It is hoped to have the tables extend the full length of Washington street from Second to Ninth, and the overflow to extend on either side of Chillicothe street at the different street intersections.

Every whistle in Portsmouth will blow and every bell will ring at an appointed hour, probably twelve o'clock, announcing the opening of the big dinner, which will be served at the same time on each block.

Brass bands will march up and down the streets on each side of the tables, playing inspiring music throughout the meal. Moving pictures will be taken of the scene, which will be shown in motion picture theatres all over the country.

Final arrangements for the dinner will be made on the evening of October 1, when the executive board and the representatives of the churches will meet again at the offices of the Business Men's Association.

Prospects are bright for the other big feature of the opening day, the "Boosters' Parade" on Wednesday evening, which promises to eclipse any puerile ever held in the city in length and numbers. The report from that committee was very encouraging, indicating that every business and industrial activity in the city would be represented in the parade.

Word was received just before the meeting that Senator Warren G. Harding would be unable to make the principal address at the dedication of the new Scioto river bridge, at the close of the parade. Roy McElhane, who was present, assured the committee that Ralph D. Cole, of Findlay, could be secured, and he was authorized to extend him an invitation. The other speaker will be Clinton Cowan, superintendent of the state highway department.

Cole was to have made an address at the Log Rolling Association meeting on Saturday, but Mr. McElhane said he would secure another man in his place.

Arrangements were made during the evening for a meeting of the public school teachers on Wednesday afternoon at the high school building, which will be attended by Superintendent Appel, St. Straus, and E. W. Richards.

Definite plans for the "Children's Parade" will be made at this meeting. Superintendent Appel stated that he was through making reports and that from now on he and his teachers would be hard at work making the school exhibit and the "Children's Parade" big successes.

Chairman Ben G. Harris had an encouraging report concerning the school contest, preparations for which are progressing under the tutelage of excellent instructors.

The manufacturers' exhibit will probably be located on Gallia street, although the Korn Karnival committee favors Second street, including the Second street school building site. The shoe factories favor the old Excelsior shoe factory building for their motion picture show, depicting the manufacture of shoes.

Definite decision regarding the location of the manufacturers' exhibit will be made next Monday evening. Captain J. W. Smith was instructed to endeavor to induce the manufacturers to locate on Second street.

Chairman William Trueschler reported that all arrangements had been made for the street decorations, and that Charles Dixon was busy making arrangements for the decorations of the buildings.

E. W. Richards, chairman of the advertising committee, reported that his work was all completed, and that the entire section within a radius of fifty miles of Portsmouth had been flooded with Korn Karnival advertising.

The committee was disappointed in the delivery of its Korn Karnival badges, which were to have arrived here September 15. The company manufacturing them failed to secure the colored ribbons and a few were ordered with white ribbons for the Chillicothe excursion Thursday evening. If they are satisfactory, the entire order will be O. K'd.

Chairman J. A. Bode of the fruit committee was authorized to order ten fruit boxes for the Korn Karnival. They will be well made for use in future years.

St. Straus of the amusement committee, reported that he had booked all of the free attractions. The latest one is a troupe of trained roosters, fifty in number, which do everything but talk.

W. H. Burt, chairman of the transportation committee, reported that special trains from every direction on the N. & W. were assured for Thursday and Saturday, and that the outlook for special cars on the B. & O. S. W. and C. & O. was not very encouraging.

Mr. Burt also reported that the "Hills' Parade" was an assured success, and that his committee would show the people of Portsmouth something that they had never seen before.

The financial outlook for the Korn Karnival was satisfactory, reported Ben G. Harris, chairman of the finance committee.

Daily programs will be printed at the Kah-Patterson booth in front of the printing office on Second street.

Assurance was given by the Portsmouth Street Railway and Light company that plenty of light will be furnished free of charge for the bridge dedication.

### WANT EAST END THERE, TOO

East End merchants will be urged to participate in the Korn Karnival by a committee of downtown merchants who will visit them Wednesday morning. Space will be provided them for booths if they wish to make a display. The committee will consist of President Charles Daehler, W. H. Burt, Samuel Horchow, St. Straus, Ben G. Harris, and J. A. Bode.

### BOY SCOUTS WILL HELP

Boy Scouts will assist the police in handling the crowds during the Korn Karnival. E. M. F. Kinsey, the local scout leader, assured President Charles Daehler that 150 scouts would be available. They will be divided into groups of six each, one of whom is a lieutenant, and each group will have its captain. They will be on hand to keep the crowds back during each parade.

### QUARTETTES, GET BUSY

Has Portsmouth ceased to be the home of the "barber shop chorod?" Where are the male quartettes of a few years ago? Not one has entered in the male quartette contest on Saturday, the last day of the Korn Karnival. Big prizes will be given the quartettes making the best showing.

### PARADE WILL START AT 7

Chairman Roy McElhane of the Fraternal Parade committee announced Tuesday morning that the Fraternal Parade would start on Thursday evening at 7 o'clock. Special trains from Chillicothe and Irouton and intermediate points will be timed to arrive here just a few moments before the parade starts, so that no delay will be encountered in getting the visitors in the parade.

### PLAN FINE REVIEWING STAND

More attention will be paid this year to the architectural design of the Korn Karnival reviewing stand. A plan is being drawn of the stand, which will be erected at the west end of the government esplanade. The stand will be roofed, and a large American flag will float from the top of the roof.

### BIGGER AGRICULTURAL DISPLAY

The agricultural display booths will be double in number over last year. They will be built in the upper market square and along both sides of Gallia street to the end of the square. All agricultural displays will be located in this district.

### FREE ICE WATER FOR ALL

Free ice water will be a feature of the Korn Karnival this year. Six huge barrels will be located at different points on Second, Chillicothe and Gallia streets. J. M. Storkhman will furnish the ice and the city of Portsmouth the water. Plenty of drinking cups will be attached to each barrel.

### EXHIBIT GOES TO PHILADELPHIA

The exhibit of the Portsmouth Engine company during the Korn Karnival this year will be the same as the company will exhibit at the manufacturers' exposition in Philadelphia later. The company will be given its old location in front of Dr. W. E. Gault's residence.

That special trains from every direction on the N. & W. were assured for Thursday and Saturday, and that the outlook for special cars on the B. & O. S. W. and C. & O. was not very encouraging.

Mr. Burt also reported that the "Hills' Parade" was an assured success, and that his committee would show the people of Portsmouth something that they had never seen before.

## The Know-It-All, Fussy, Small Potato, "It" And Other Foremen Are Discussed

Splendid Address Made On Efficiency By Walt Goodwin To Shoe Factory Leaders

Privileged to hear Walt Goodwin of New York, who is recognized as one of the best posted speakers on efficiency in America and whose specialty is to talk to employees of the larger firms in the country, members of the Superintendent and Foremen's Association of the Selby Shoe Company and superintendents and foremen in the Excelsior and Irving Drew plants practically filled the first floor of the old Excelsior building, Monday night, and for almost two hours attentively listened to one of the best talks of the kind ever heard in Portsmouth.

Plunging right into his work, Mr. Goodwin classified the foremen as "The Small Potato Foreman," "The Indifferent Foreman," "The Know-It-All Foreman," "The Fake Foreman," "The Fussy Foreman," "The Narrow Foreman" and "The 'It' Foreman."

He took up each one, showed their good points and their many bad ones and did it in a most systematic and convincing manner. Mr. Goodwin's subject was "How To Handle Men" and he had not been talking very long until his audience was convinced that he knew whereof he was speaking and everybody settled back to hear a fine talk and no one was disappointed.

"The Indifferent Foreman" is the most dangerous of all executives. He tries to yawn his way through and usually does until some one gets next to him. His indifference is usually imparted to those under him and his department gradually falls behind others in his plant. Mr. Goodwin declared. The only kind of bad fruit I am in favor of eating is "The Indifferent Foreman."

"The Small Potato Foreman" is a detriment to any plant. He is the fellow who carefully picks men to work under him whom he is certain that he can handle. He is the chap who right off the bat slashes salaries so he can get a pull with the boss. He never has a new idea and grows smaller each day.

"The Narrow Foreman" is the chap who the longer he stays on the job the narrower he gets. He is so conceited and self-satisfied that he scorns all suggestions of his subordinates. He shows no growth and no leadership. He is run-bound and is all humors in.

"The 'It' Foreman" ignores the so called red tape and details. He is long on promises and short on performances. He is always playing politics in business and has no respect for any one but himself.

### POISONED HIMSELF AT 40!

Death by slow poison is killing many a man, young in years, who has made the fatal mistake of failing to understand the warnings of kidney trouble.

When your kidneys begin to lag in throwing off natural poisons that accumulate in your body, the first warnings come in little twinges of stiffness across your back and hips. Urination may be too frequent; you may feel "tired" in the morning when you should feel your best.

The best known remedy for these troubles is GOLD MEDAL HARMON OIL capsules. This remedy has stood the test for more than 200 years since it was first produced in the ancient laboratories in Haarlem, Holland. It acts directly on the kidneys and bladder and gives relief at once, or your money will be refunded.

GOLD MEDAL HARMON OIL capsules are imported direct from Haarlem, Holland, and can be had at any drug store. Prices 25c, 50c and \$1.00. Accept no substitute.

"The Know-It-All Foreman" is the greatest handicap that firms have to contend with today. He is fully aware of the fact that if he resigned the whole plant in which he is employed would have to suspend operations. He labors under the misapprehension that he knows more about the plant he is working in than the fellow whose brains and money built it. Firms and workmen in general will be better off when this pest is effectually stamped out.

Mr. Goodwin during his discourse said there were three classes of executives. That which you think you are, That which you actually are and That which you show you are. The speaker bitterly arraigned the "leech" who gets into every plant, the "fussy bus," who never does anything but annoy people, the pessimist and the foxy jollier. And of these the pessimist is the worst. I would rather have father come home drunk than dripping with pessimism," said Mr. Goodwin.

"You can handle a drunkard," he declared. "The pessimist is all hemmed in. He is wedged in and as soon as he is rooted out and kicked out we are all going to be better off."

Mr. Goodwin illustrated his talk on a huge blackboard and he scored a number of fine points. He convinced his audience that he knew all angles of the efficiency game and he paid the faithful, planning, plodding and conscientious foreman a glowing tribute.

The meeting was one of the best ever held by the Superintendent and Foremen's Association of the Selby Shoe Company, which will begin holding its regular meetings in October.

W. D. Gilliland acted as chairman of last night's meeting and introduced Mr. Goodwin in a capable and humorous manner.

Messrs. Oscar Upp, William Journeay, Frank Allen and Henry Hobstetter were on the receiving line and saw that everybody got a seat and a good cigar. It is meetings of this kind that weld a feeling of satisfaction between the employer and employee. About 35 foremen from the Selby, Irving Drew and Excelsior plants were present and enjoyed every feature of Mr. Goodwin's address.

## What Thin Folks Should Do To Gain Weight

Good Advice For Thin, Underdeveloped Men and Women

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised flesh-makers, food-fads, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered combination of assimilative agents has made fat grow after years of thinness, and it is also unequalled judging from reports for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable preparation is called Sargol. Six strength-giving, fat-producing assimilative elements of acknowledged merit have been combined in this preparation, which is endorsed and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A few weeks systematic use of Sargol should go far to produce flesh and strength by correcting faults of digestion and by supplying nourishing fats to the blood. If not, every druggist who sells it is authorized to return the purchase price. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are thus provided. Fisher & Streich and other leading druggists supply Sargol and say there is a large demand for it.

While this new preparation has from reports given splendid results as a nerve-tonic and vitality, its use is not recommended to nervous people unless they wish to gain at least ten pounds of flesh.

## TEUTONIC CAMPAIGN STARTS IN SERBIA

Berlin, Sept. 21 (via London).—Official reports from Austrian and German headquarters, and dispatches from the Balkan capitals show that the long-expected Teutonic campaign against Serbia has now begun. Austrian and German artillery today is bombarding Serbian positions at various points along the hundred mile front between the mouths of the Drina and Morava rivers. Just where a crossing will be attempted, is unknown.

## WORKINGS OF HUGE LOAN GO SMOOTHLY

New York, Sept. 21.—Negotiations toward the establishment of a credit loan of from \$100,000,000 to \$200,000,000 to Great Britain and France moved smoothly today, it was said with virtual elimination of the matter of providing a method of paying for munitions and with the reported determination of both sides not to tie up the whole sum at one time in New York. Subordination of the troublesome question of providing a way for paying for munitions of war, has not simply postponed a decision on this point, in the opinion of the Anglo-French commission—as reflected by its callers, but will result in its gradual disappearance. These bank-

Sister M. Ottilia, of St. Mary's school, received word Monday that her niece, Miss Mary Williams, aged 21 years, of Manatee, who was burned in a gasoline explosion early this summer, had just been removed to a hospital in Toledo, though there being but faint hopes for her recovery. The young woman's little brother, Leonard, died from burns at the time of the explosion. Sister Ottilia nursed her unfortunate niece throughout the summer months.

## TO TAKE CARE OF CHILDREN

Miss Helen Worthington will remain home to assist her mother, Mrs. Finley Worthington, of Campbell avenue, in rearing the little four-months-old baby and also a three-year-old daughter of the former's sister, Mrs. Grace Stewart, who was burned to death Labor Day while preparing a bottle of milk for her baby. Miss Worthington was employed in Columbus at the time of her sister's tragic death.

### WANT ROADS NOT MONEY.

We think that Prosecutor Mickelthwait is laboring under a misconception as to what the public wants in the matter of county roads as otherwise he would not be talking about waiting and collecting money from contractors as punishment for their delay, after the work has been completed. The people are not after money. If they wanted to collect money from contractors, they would save it all by not improving roads. What is desired is action, not money. We want the road contracts completed with all possible speed so that they will be passable for the citizens of the county, and in the furtherance of this, the prosecutor can be of the greatest service to the people. We feel sure that Prosecutor Mickelthwait can find a way to jack up and spur on contractors. He can at least make life a burden for them that they will be glad to fulfill their obligations to the letter.

There is a certain amount of inconvenience necessarily attendant upon public improvements, but in Scioto county there has been delay and disregard of public rights that is almost criminal. The township work has dragged, the new road to the hill has lagged, temporary roads have not been kept up. The Harrisonville section is now almost cut off from the city, the Munn's Run, the Little Scioto and the Swauger Valley roads all being torn up and out to pieces so that farmers can scarcely travel over them. These things should not be. It costs the farmers money and it costs the city money. People are thoroughly disgusted and they demand immediate and forceful action from those in authority. And our officials would earn the lasting gratitude of the public if they would make pegglient contractors do their duty or else kick them out.

### CHURCH SOCIALS.

We had an interesting talk Monday with Rev. Dr. J. C. Jackson, in regard to the address he made at the recent Methodist conference concerning church socials. Dr. Jackson says that he does not want to be understood as opposing the church social as such. He believes in them as a valuable adjunct to church and community life, but like everything else he believes they have their place and that they should not be abused. In some instances, Dr. Jackson says, congregations have come to regard the church social as a means to making up deficits in pastor's salaries, and in figuring up the budgets for the coming year, the official boards of some churches figure upon revenue from church socials as a part of the settled income of the church from which to meet general expenses. Thus during the past year in some church communities they were delinquent in pastor's salary and as an excuse would say, "We counted upon so much money from our socials but it rained that time we gave one and so we did not realize what we expected."

In these cases people donated the articles on sale and were then expected to buy them back, in this indirect way, apparently getting something for the money they were giving to religious work. It is this phase of the social that Dr. Jackson condemns. He holds that it is beneath the dignity of any man, beneath the dignity of religion and the church, to have to raise money for its legitimate expenses in this devious manner. "Men should be ashamed to give in this way. They should arrange to meet expenses in a straightforward manner, each giving according to his ability. Then have their social gatherings, make them as bright and enjoyable as it is possible to do and I am sure that under such circumstances they will be all the more appreciated by the congregation and its friends."

We are glad to be able to present Dr. Jackson's views more fully than was given in the brief newspaper report of his address to conference and we are in hearty accord with him in his desire to get the problem of church finances upon a more stable basis, and at the same time not do away with the social features incidental to church life. As we stated once before, in many country communities the church social is one of the most important events of the social life of the year, bringing both members and non-members together in innocent and pleasant enjoyment. It should not be abandoned until something better is found to take its place.

We really do not see how the board of county commissioners can overlook the valiant services of the Hon. Ben Wishon when they parcel out the two court horse janitorships Wednesday. If there was anybody in these parts who did any heavier standing about on the street corners than Ben during the past few campaigns we would like to know his name. At least that is what the man who stands on the First National Bank corner every day in the year, holidays included, told us this morning and he ought to know a rival when he sees him.

The Columbus Journal prints George Ditty's picture and says that he may yet land the chief examinership of steam engineers, as the governor has promised to recall the appointment of the man who had been named, allegations being made that he was a strike breaker rather than a union man. Well, we'll bet that George will not let any of his light hide under a bushel if there is any chance for even a glimmer to shine out on our good young governor's pathway.

### AT THE WHEEL

### WAS A GOOD OFFICIAL.

M. W. Kehoe who lost his position as deputy inspector of work shops and factories for political reasons, had served on the job for more than six years. He made a splendid official, courteous and obliging was competent and he was firm when occasion required firmness. He had the confidence of those with whom he came in contact and he retired with the good will of the citizens of his district. It is to be regretted that Mr. Kehoe's successor did not come from among the Republicans of one of the industrial centers like Ironton or Portsmouth or Chillicothe or Jackson, as above all others it requires a man familiar with factory conditions and working conditions. Just what qualifications the Brown county man, who landed the place, has, no one here seems to know. Certainly Brown county is noted more for being an agricultural community than it is for being a manufacturing center.

### LAUGHTER NOT TEARS.

And now comes the Bluefield Telegraph and indignantly denies that it or anybody else in West Virginia gets "riled" over that Thirteen Million debt saddled onto the state by the supreme court. Copying a recent little remark we made about the matter, the Telegraph says:

"As usual with out-of-gear papers the Portsmouth Times seems to think we owe this money to Virginia. We do not believe we owe it at all. There is a judgment, however, against West Virginia, but when anything is paid on that, it will go to the holders of Virginia bonds, which the court says West Virginia owes. West Virginia could raise the money and probably will have to do so, but no one is rawbiding us for it except some newspapers who would not get any of it, and who are apparently better collectors for the state than they are for themselves, according to our knowledge of the business. It does not 'rile' the boys. What the Times thinks is the condition it calls 'riled' is simply the way we laugh over here."

Yes, we have seen that sort of a laugh. It is the kind sometimes described as "a sickly laugh, out of one side of his mouth"; and again as "a forced laugh in which there was no humor apparent to any one." From the tone of the Telegraph rejoinder we think either might fit its own peculiar brand of laughter.

They do say that it looked like the good old times when the gang reigned supreme and the county money flowed in a never-ending stream into the pockets of the faithful, had come back out at the court house Monday when the new county commissioners were inducted into office. The old bunch were all among those present and they were willing to carry away every thing loose from the janitorship to the court house key.

## Sketches of Little OLD NEW YORK

New York, Sept. 21.—The Gotham lynx-eyed sleuths are on the trail of what is believed to be the "meanest man". He derives great pleasure from inserting "Want Ads" in the metropolitan journals and then watching hundreds of jobless men and women trudge to the address only to be fooled.

He has been at his strange vocation for some weeks. The address may be of a millionaire on Fifth Avenue or it may be some lowly tenement on the East Side. Many of the jobless folk are forced to ride to the address and the spending of a nickel uselessly is a hardship.

There is a law in New York state which makes it a penitentiary offense to insert an advertisement in a newspaper for a position which does not exist and the newspapers are going to make an example of this Want-Ad comedian. Big rewards have been offered and amateur detectives are on the trail also.

W. B. Walker, a North Carolina who cuts a figure in the advertising world in New York, was dining at his club when he heard the news that South Carolina had swung into the State-wide prohibition columns.

"What will the Governor of North Carolina say now?" asked a friend.

"What else will there be for him to say?" was Walker's snappy rejoinder.

Under our higher form of civilization the murderous lower East Side politics passes as an exhibition of the workings of free political institutions in these glorious United States.

The arrest of Mike Rofrano, East Side politician and lawyer, accused of hiring murderers, has revealed a bloody tale of crime. There were murders, stabbings and throat cuttings every day. Club houses were wrecked and many merchants were driven out of business.

### THOUGHTFUL ENOCH.

Quite a number of girls and young ladies were wading in the creek one day last week on Mel Hick's place. Enoch Chase worried for fear they might get in too deep and slipped along behind to kind of watch over them. In his anxiety he leaned too far over the bank and fell into the creek, where the girls were. As the deepest water is only about a foot deep Enoch didn't need to be so uneasy.—Larned, Kansas, Tiller and Toller.

Speaking of the activity in the steel business, Henry Clews says it is not altogether dependent upon war orders. Railroads are shipping around and placing orders, he says. There has also been satisfactory improvement in the legitimate export trade, the export divisions of some of our largest concerns being rushed with business of the regular type and not munitions of war. And when the war is over American steel manufacturers will be called upon to furnish much of the material needed for reconstruction in European countries. Altogether the outlook is quite hopeful and encouraging.

We refuse to get excited because the state moving censor board has refused to pass "Hypocrites". People do not have to go to a movie show to take a lesson in hypocrisy. All they have to do is to stand on the street corner of any town and watch the procession go by. They can usually pick out enough "hypocrites" to last them for a time.

We were highly edified the other day in reading in one column of a paper where German sympathizers were protesting, against a loan to the Allies and then reading in the next column where Germany was figuring on paying back a loan she had made here.

Judging by the eruption of our able, brilliant and eloquent young prosecuting attorney at the meeting of the new board of county commissioners Monday some of the shots fired at him Saturday by former commissioner "Billy" Bennett must have hit close home. Anyway Bennett seemed to think that like another Joseph, our own Joseph was wearing a coat of many colors.

Go away from home to get the news. The Columbus Dispatch says that Artie DeVoss secured his state appointment through the insistence and persistence of Chas. E. Hard, vice chairman of the Republican state executive committee.

Travel in the Panama canal is again blocked by a slide at Culabra says a dispatch Monday. Begins to look as though building the canal was not half as great a problem as it is to keep it open for traffic.

Jean de St. Cyr, known as one of the best dressed men in New York, is back from California, where he has been on his honeymoon. St. Cyr recently married a widow who had two million lovely dollars. When he went West he had two trunks full of nothing but shirts.

When he and his bride, who always goes heavily veiled, go to luncheon at the Ritz the crowds gaze at the new sartorial effects. The newcomer was a blonde Apollo who went hatless and wore a sport shirt and was always dressed in white. Just when it looked like he was going to surpass St. Cyr it developed that he was a moving picture.

## PASTORS ARE CHANGING

Rev. C. L. Dix, who was assigned to the M. E. pastorate at South Webster will arrive the latter part of the week from Racine, O., where he has been pastor of the Racine M. E. church. Racine is in Meigs county and is a town of 540 population, 1910 census.

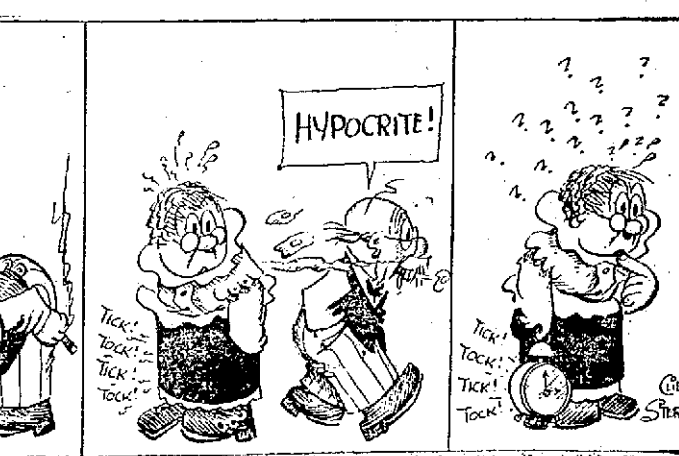

Rev. Samuel C. Elson, former pastor of South Webster M. E. church, who has been assigned to the M. E. church at Anesville, Athens county, O. church, is busy packing his household goods and will leave in a few days for his new field of labor. Anesville is a town of 267. South Webster in 1910 had a population of 499.

### Property Is Re-Appraised

Real estate of the Sciotoville Milling Company was appraised at \$10,000 at a re-appraisal ordered by the court recently. The report was filed in probate court Monday morning by Ben Cranston, J. B. Mackay and H. D. Palmer, the appraisers. The property will be offered for sale again.

### New Clerk.

Miss Ella Theobald, of New Boston, and John Fritz, of Portsmouth, have been temporarily added to the clerical force in the office of T. C. Patterson, county auditor, to assist in the closing up of the year's business. Sampson D. Eckhart, the auditor-elect, takes his office in October.

## REV. A. R. CONNELL GOES TO CHICAGO JUNCTION; IS IN NEW CONFERENCE

The Rev. A. R. Connell, who served as pastor of Bigelow church for the past year, has been transferred from the Ohio M. E. Conference to the North East M. E. Conference and his first assignment in it will be at Chicago Junction, Huron county, Ohio.

Rev. Connell received a telegram Tuesday morning from Bishop W. F. Anderson

notifying him that he had been transferred to a new conference and that he would take charge of the M. E. church in Chicago Junction, which has a population of 3,500.

Rev. Connell's salary will be \$1,500 per year with free rent as his new church has a splendid parsonage.

Rev. Connell wired Bishop Anderson today that he would accept the assignment and

would leave here Thursday or Friday for his new field of endeavor. He expects to deliver his initial sermon to his new congregation in Chicago Junction next Sunday.

Bishop Anderson presided over the North East M. E. Conference and when the appointments were made Rev. Connell was taken care of, arrangements having been made to transfer the local minister to a new conference.

## BIG BUSINESS RECORD ON NORFOLK & WESTERN

The Norfolk & Western during the second week of September did the largest business ever handled before in the history of the road, inquiries of officials in a position to know, developed this information in the course of inquiries made along this line yesterday.

With the big Mallet engines, which handle twice the tonnage of the engines formerly used on the system, it was learned there had been in service thirty full crews. Of this number ten crews were in time freight service.

Business for last week has fallen off somewhat and three crews were laid off temporarily, though the opinion of officials charged with the handling of the tonnage think this fall in business will be only a temporary one.

City May Haul Them Away

## May Put Ban On Burning Of Leaves

If there is anything in the popular belief that burning of leaves is responsible for diphtheria epidemics a chance will be given to prove it this fall, if plans of the mayor do not miscarry.

The mayor, acting upon the suggestion of a prominent citizen, has brought the matter to the attention of Dr. W.

W. Smith, the city health officer. The citizen advised that an order be issued from the health board against burning leaves this entire season so that the matter of leaf burning affecting the public health be thoroughly tested out. The service department will arrange to sweep and haul away all leaves piled up on the streets.

## ROBBERY AT THE FOEHR SALOON

George Foehr, a saloonkeeper, of 1015 Waller street, reported to the police Tuesday morning that the cash register of his luncheon room had been rifled of all the change it contained, amounting to \$17.

A man, who for the past week had been doing porter duty about the saloon, and who only Monday was given charge of the lunch-

room, disappeared simultaneously with the money. He had reported for duty early Tuesday but when Bartender Jack Parker stepped into the luncheon room for a cup of coffee he found the man gone. All trace of him has since been lost, according to Foehr.

Chief B. E. Allen is investigating.

## JOHN WAS SLANDERED

Nay, not so, 'tis a cruel slander upon the fair name and fame of a prominent colored politician that he over aspired to again hold down the job of court house janitor. So says Hon. John W. Evans, of the report published Monday that he was an applicant for one of the two janitorships to be dispensed by the new

board of county commissioners. "Just say for me that I was never a real or receptive candidate for janitor," said Mr. Evans. Tuesday morning, "I do not want, and would not have the place. I do not understand how the impression got out that I sought the place. Nothing was further from my thoughts."

## Allen's Appointment Is Provisional One

The appointment of Buck E. Allen as chief of police is a provisional one, City Solicitor Stanley McCall having assured the mayor that under the law he could name a temporary successor to the late Chief W. T. McCarty for a period of 90 days.

When the time limit of the appointment expires Mr. Allen will have to take a Civil service examination. He entered upon his duties as head of the department at roll-call Monday evening.

Capt. Grant Cooper, who was a receptive candidate for the office, accepted the announcement of Mr. Allen's appointment with good grace and gave his hearty approval to the selection. The naming of a

man outside of the department will not disrupt the service by necessitating changes, the mayor holds, and leaves every man on his same former footing. Capt. Cooper was assured that his services as captain and acting chief have been greatly appreciated. Cooper has been looking after Chief McCarty's work for the past five or six weeks, working day and night, and was glad to be relieved of the responsibilities.

Circus Making Money

Robert Abrahams, who is with the Hagenback-Wallace circus, arrived in the city Monday to pay home folks and friends a short visit. His circus is in Washington, C. H., and was in Lancaster Tuesday. Mr. Abrahams says the show has had a wonderfully successful season despite the fact that it has been a rainy summer.

## Ashland Theatre Leased By Potts

J. F. Potts, proprietor of the Arena theatre, and one of the pioneers in the motion picture business, has leased the "Lyric" theatre at Ashland, Ky., for a term of five years and expects to operate the theatre, beginning this week. The theatre, which seats 325 people, and which is modern in every respect, is thoroughly equipped and is located on the main street of Ashland. The theatre was erected and operated by C. C. Moore, one of Ashland's most prominent business men, who finds that he has not sufficient time to devote to the motion picture business. He had offered the equipment for sale, and when Mr. Potts offered to lease the theatre for five years, Mr. Moore took him up and the deal was closed right then and there.

Mr. Potts stated that he would go to Ashland Wednesday, and work the Arena.

## WHO LOST A PIN?

Edward Corns, grandson of Mr. and Mrs. Mike Duschinski, of Glover street, found a gold breast-pin several days ago and, undressing it, traced it to Norman Reeg for four pawpaws. Young Reeg lives at 1412 Sixth street and would be glad to return the pin to its rightful owner. The pin looks as though it might have cost about \$10.

## REV. J. A. MOATS RETURNS TO CITY AS FUTURE HOME

Rev. James A. Moats and wife have returned to the Peerless City and will make this place their home for the present. Rev. Moats left Portsmouth nine years ago and for the last two years has been pastor of a M. E. church at Cassville, Wis. He has also filled pastorates at other points since leaving Peerless Portsmouth. Prior to leaving the city Rev. Moats was employed in the Irving Drew shoe factory for five years and he also worked in the Star shoe factory. Many Portsmouth residents remember Rev. Moats, who lived on West Second street. He has been in poor health for sometime and just recently left

a hospital.

Rev. Moats is also well known in Pike county, where he once lived and married.

## "SLIM" SULLIVAN, FORMER PORTSMOUTH RESIDENT, TO DRIVE A WAR AUTO

Dodging German bullets will soon be the daily occupation of a former Portsmouth boy, Neil ("Slim") Sullivan, who has signed a contract with the English Consul to drive a war dispatch auto at two pound sterling per day.

This information was contained in a letter received from "Slim" by Frank Stanton, one of the proprietors of the Smoke House, Monday.

Writing from New York "Slim" informed Mr. Stanton that at a competitive test of skill in the driving of automobiles, he had been selected by the English Consul and had signed a contract at the conclusion of the drive. He admitted that he went into the contest with slight hopes of coming out the winner, but that he threw aside all care and made the

machine cut up all sorts of stunts, turning corners on two wheels and turning around on a three cent piece. He stated that he feared sometimes that the machine he was driving would turn turtle and bury him beneath the top, but luck was with him and at the conclusion of an hour's test he came out with colors flying and a whole car.

The Consul jumped into the car and was driven to his headquarters, where Sullivan soon attached his signature to a contract to drive a war dispatch auto. He was reminded of the fact that the auto would be compelled at times to be at the front and that he would be subjected to many dangers, the probability being that he would be a target for a German shell or bullet. However "Slim"

could not be scared and soon had signed the papers.

He writes that he expects to leave at once for Pittsburgh, to visit his parents. He will remain there for two weeks and then leave for Montreal, Can., from which point he will board a steamer for England. As soon as he reaches Montreal, his salary begins. All his expenses will be paid and as soon as he reaches England he will receive his first check.

Young Sullivan, who is the son of C. P. Sullivan, who is a government inspector and who supervised the building of the new addition of the Portsmouth post office building, is a "dare-devil" sort of a chap, and his new field of action will have enough excitement in it to make life worth living—for "Slim."

## Many Inquiries Are Made About Flood Wall Bonds

Judging from the number of inquiries being received, the \$70,000 bonds to provide the means for extending the flood wall from Front and Chillicothe street east to Off-fer street, and replacing the Scioto Point, are sure to sell October 6th.

To date about 35 inquiries have been received, which is considerably more than usual. The city council will meet the night of October 6th, and resolutions to award, and an ordinance approving plans, may be

passed at the same session. The director of public service will then have three weeks' time in which to advertise the work, so that the latter part of October, or beginning of November should see the big improvement well under way.

City Engineer George S. Wilhelm, who has taken up the matter of flood pumps with various pump works, received sketches and recommendations from Henry P. Worthington, a pump expert of Cincinnati, Tues-

day morning. Mr. Wilhelm's plan provides for locating the pumping station at the northwest corner of the old Mill street pumping station lot, the present stone wall of the lot to be razed to the surface. The pumps will discharge westward. Mr. Wilhelm has also provided for a flood wall driveway between the old Mill street station and the water works barn, the latter to be inside the flood wall, while the station will be outside the wall.

## Committees Named By Elks; Indoor Fair To Be Success

The Elks Indoor Fair, to be held in conjunction with the Korn Carnival, is going to be a magnificent success. Members of the antlered tribe are going to make it a success. That's all there is to it.

Indoor Fair enthusiasm ran high at a meeting of all committees held Monday night. Splendid progress was reported all along the line. It is to be made one of the greatest events of the kind ever staged in Ohio. Diversified in character, rollicking and boisterous all the way, and with a world of novelties to entertain the thousands of Korn Carnival visitors, the event will go down in history as one of the really worth while features of the Carnival.

At last night's meeting committees were parceled out as follows: Check room, Clifford Anderson; Hokey Pecky stand, J. Houston Varner; Refreshment, Privileges, Joe Augustin; Flower Privileges, Harry Revare; Candy Booths, Paul Davidson; Jumbo Doll Booths, Sam Williams; Financial Booth, Karl Zoellner; Police Officers, Dr. P. W. Young and George McMahon; Dance Committee, I. H. Goodman, Paul Harsha, Will Poley, Chalmers Davis, Ernest Kelley and Charles Ahrend; Household Novelties, Will J. Meyer; Father Time Booth, Orin B. Oakes; Seaside Maze, Ed Gableman; Stairs, E. K. S. Chickenshead; Fish Pond, Paul Eschborn; Shooting Gallery, L. P. Haldeman; Wild Animal Show, Dr.

George Mytinger; Country Store, Alfred Richardson; Carnival Novelty Stand, Abraham Shelton, St. Straus and Stanley McCall; Ballyhoo Committee, Henry Bertram, John Neudorfer, Earl Cookes, Clint Searl and Dr. J. W. Hutchens, Steve Stewart, J. Mitchell Smith.
